Advanced Programming in the UNIX® Environment:
Second Edition

APUEv2 reads quite easily as a beginner's introduction to programming in the Unix environment. However it also includes a great deal of tables, charts, and figures to make it suitable as a reference for the more experienced programmer, useful as a back-up in case the local man pages are not available.

Environment

Fortunately, they are readable on the iPad Air. In some titles the examples are just 8x8 bit maps, and worthless. It's a nice easy intro into more advanced programming. Beware, the first chapter is mostly a review of Unix history and standards, which I found almost lethally boring, maybe others find it interesting.
