Dr. Marty Becker has become known as "America's Veterinarian" because of his educational and entertaining shows and columns. For more than ten years, Dr. Becker has been the popular veterinary contributor to ABC-TV's Good Morning America and is now a member of Core Team Oz on Dr. Mehmet Oz's show. Dr. Becker will help owners solve problems and enhance their bond with their cats through a tip-filled book on everything from finding the right cat to preventing health problems and bad behavior. He will start owners off on the right foot, whether they buy a kitten or adopt an older cat, showing them how to solve the most annoying behavior and cat-care problems—from scratching furniture to not using the litter-box. (Surprising fact: did you know that black cats shed more than light-colored cats?) And he advises owners how to make their own cat toys, and how to save money on medication, both traditional and alternative.

All you need to run a modern home Hundreds of expert time-and-money-saving ideas A must-have for every household This indispensable manual is a must-have for every home. The Art of Good Housekeeping is packed with tried and tested answers to every household query, from how often you should clean your duvet, to how to maintain the exterior of your house. Chapters include Buying a Home, Equipping your Home, Care and Maintenance, Cleaning, and Safety and Security. Topics covered include everyday chores, appliances, planning rooms, buying furniture, legal matters, mortgages, pipes and drains, and gas and electricity. With easy-to-follow, practical illustrations throughout, this book packs a wealth of expertise into one indispensable volume so you can run your home without running out of steam.

Stains and how to remove them are one of the less appealing aspects of life — but this book is here to help, whether you need to clean a red wine spill out of your new cream carpet, save your favourite dress from that stubborn mascara mark or remove nail varnish from your polished wooden table top. A comprehensive stain directory provides full information on your first and late response measures for every stain and how to deal with the problem on a variety of different surfaces and fabrics. Easy-to-follow sections include Bath and Beauty, In the Kitchen and Life's Little Accidents — with a fully cross referenced and symbol coded index to enable you to find your stain in an emergency or hurry. We also spill the full truth on commercial stain removal products and how they work: testing typical commercial brands, eco friendly makes and traditional home remedies against one another to show which ones really do work — with surprising results.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. House cleaning has been an innate human activity forever but only since the early 19th century have mechanical devices replaced the physical labor (performed mostly by women). Mechanical carpet sweepers were replaced by manual suction cleaners, which in turn were replaced by electric vacuum cleaners in the early 20th century. Innovative inventors, who improved vacuum cleaners as electricity became commonly available, made these advances possible. Many early manufacturers failed, but some, such as Bissell, Hoover, Eureka and others, became household names as they competed for global dominance with improved features, performance and appearance. This book describes the fascinating people who made this possible, as well as the economic, cultural and technological contexts of their times. From obscure beginnings 200 years ago, vacuum cleaners have become an integral part of modern household culture.
