Without the sort of leadership that upholds the dignity and rights of employees and clients, as well as the interests of shareholders, even the most meticulously prepared ethics statements are destined to founder, as evidenced at Enron and elsewhere. Over the past 30 years or so, since business ethics became established as a discipline in its own right, much progress has been made in the ethical conduct of business at all levels. In short, business people, like politicians, doctors and church leaders, have come to realize that it is not possible to avoid involvement in ethics, for much of what business people do and cannot do may be subject to ethical evaluation. While the

history of business ethics as currently practised may be traced to the medieval and ancient periods; our principal concern is with developments in the field over recent decades. A consideration of how the topic has been treated by the Harvard Business Review, the business world's leading professional journal, provides helpful insights into past progress and present challenges. In 1929, just as business ethics was beginning to evolve, Wallace B.

## And Answers

The key to teaching business ethics successfully, says Sims, is to start with clear goals and a sensible expectation of outcomes, and with a true knowledge and appreciation of how people actually learn. Proceeding with the conviction that open communications between teacher and student before, during, and after the teaching experience is vital, Sims identifies key teaching processes, gives practical advice on designing and planning the curriculum, and offers guidance on how to develop a climate conducive to effective learning. He also emphasizes learning styles and experiential learning theory as cornerstones of teaching business ethics, an approach unlike any in the

**Literature And Answers** An important guide for those who are new to teaching this essential subject, Sims' book will also help more experienced teachers who wonder why their own methods do not always work, or do not work as well as they think they should.

Cases in Business Ethics provides the opportunity for students not only to discuss the application of ethical theories in managerial situations, but also to apply judgment and make decisions in a real-world context. This collection of cases focuses on business decision-making, and includes both short and long, more complex cases that highlight the practicalities of business practice and ethical theory. A beneficial

feature of Cases in Business Ethics is the variety of ways in which the cases can be organized to fit the course curriculum.

The many recent high profile corporate scandals highlight the need for companies to do a better job of integrating ethics and responsibility into business decisions - and for business schools to integrate ethics awareness and training into their curricula. This volume sets the agenda for business ethics and corporate responsibility in the future. It brings together ideas, challenges, and proposed solutions for thinking about - and implementing - effective ethics programs in business schools and business organizations. Edited by
