~~Engine Coolant Level Sensor Mack Truck~~

One of the most common symptoms of a faulty coolant level sensor is a Coolant Level Light that stays on. If the sensor shorts, it can cause the Coolant Level Light to stay on.

This is a problem because a permanently illuminated coolant light will not be able to properly alert the driver if the coolant level does drop low. 2. Low coolant. Another symptom of a problem with the coolant level sensor is low coolant. If the coolant level drops low and the light does not come on then that means the ...
