The thrilling adventures of Arabella Ashby continue in Arabella and the Battle of Venus, the second book in Hugo-winning author David D. Levine's swashbuckling sci-fi, alternate history series! Arabella's wedding plans to marry Captain Singh of the Honorable Mars Trading Company are interrupted when her fiancé is captured by the French and sent to a prisoner-of-war camp on swampy Venus. Now, Arabella must find passage to an enemy-controlled planet in the middle of a war, bribe or fight her way past vicious guards, and rescue her Captain. To do this she must enlist the help of the dashing privateer, Daniel Fox of the Touchstone and build her own clockwork navigational automaton in order to get to Venus before the dread French general, Joseph Fouché, the Executioner of Lyon. Once on Venus, Arabella, Singh, and Fox soon discover that Napoleon has designed a secret weapon, one that could subjugate the entire galaxy if they can't discover a way to stop Fouché, and the entire French army, from completing their emperor's mandate.

From David D. Levine comes Arabella the Traitor of Mars, the newest book in the Adventures of Arabella Ashby series. Hail the conquering heroes! The tyrant, Napoleon, has been defeated with Arabella and the crew of the Diana leading the final charge. But, victory has come at a tremendous cost. Britain's savior, Lord Nelson, has not survived the final battle and the good people of the Diana must now return to London as both heroes and pallbearers. At last husband and wife, Arabella and Captain Singh seem to have earned the attention of great men, ones who have new uses in mind for the Mars Company captain and his young wife. Both Company and Crown have decided that it is time to bring Mars into the folds of Empire, and they think Singh is the perfect man to do it. Now, Arabella must decide between staying loyal to the man she loves and the country of her father or betraying all that she has known to fight alongside the Martians in a hopeless resistance against the Galaxy's last remaining superpower.

"When William III of England commissioned Capt. William Kidd to command the first expedition to Mars in the late 1600s, he proved that space travel was both possible and profitable. Now, one century later, a plantation in a flourishing British colony on Mars is home to Arabella Ashby, a young woman

who is perfectly content growing up in the untamed frontier. But days spent working on complex automata with her father or stalking her brother Michael with her Martian nanny is not the proper behavior of an English lady. That is something her mother plans to remedy with a move to an exotic world Arabella has never seen: London, England"--Amazon.com.

The Psalms are the longest, shortest and middle chapters of the Bible and probably the most famous. It has been largely overlooked by the various churches that there is a mystical quality inherent to the Psalms. The pages in this book contain a variety of uses to which the Psalms have been applied. By saying the particular Psalm over and over with an intent, a specific purpose may be achieved.

Learn C++ with the best tutorial on the market! Horton's unique tutorial approach and step-by-step guidance have helped over 100,000 novice programmers learn C++. In Ivor Horton's Beginning Visual C++ 2013, Horton not only guides you through the fundamentals of the standard C++ language, but also teaches you how C++ is used in the latest Visual Studio 2013 environment.
