"Overall, the 4th edition of Textbook of Diabetes is likely to be most useful to health-care providers who are involved in diabetes disease state management. The evidence-based Clinical Practice Recommendations, developed by the American Diabetes Association and revised to include up-to-date research findings on an annual basis, are additional relevant and important resources for health-care providers and will complement the use of this textbook."

...

Why has life expectancy been lower for people with type 1 diabetes? People with type 1 diabetes will, in the majority of cases, develop diabetes at a younger age than those with type 2 diabetes, therefore they will usually spend a longer period of their life living with the condition..

However, there is good news – people with type 1 diabetes have been known to live for as long as over 85
