With the same design and feature sets as the market leading Precalculus, 8/e, this addition to the Larson Precalculus series provides both students and instructors with sound, consistently structured explanations of the mathematical concepts. Designed for a two-term course, this text contains the features that have made Precalculus a complete solution for both students and instructors: interesting applications, cutting-edge design, and innovative technology combined with an abundance of carefully written exercises. In addition to a brief algebra review and the core precalculus topics, PRECALCULUS WITH LIMITS covers analytic geometry in three dimensions and introduces concepts covered in calculus. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Eldercare caregivers and professionals who enjoyed the clear, concise, practical information found in Eldercare 911: The Caregiver's Complete Handbook for Making Decisions-which Publishers Weekly called an excellent comprehensive guidebook-will welcome the authors' follow-up book: The Eldercare 911 Question and Answer Book.Both the content and format of this new essential book show the authors' unique understanding of what caregivers need most and have the hardest time finding: direct, practical, problem-solving answers that teach them to cope and help them regain control. The easy-to-read, relaxing informality of questions and answers-a one-of-a-kind format in eldercare books-simultaneously solves readers' problems and provides them with an often gently humorous, occasionally provocative, and frequently poignant look into the emotions and lives of their fellow caregivers. The authors continuously deliver the message: You are not alone.The Eldercare 911 Question and Answer Book offers caregivers new skills, outlined step by step, to help them manage the most important issues they face. Caregivers may smile, even laugh outright, as they recognize their family members among the Know It Alls, Guilt Trippers, Time Abusers, Demanders, Work Disrupters, and five more realistic categories. The authors show you how to say no to all of them!The authors dedicate full chapters to the singular needs of working caregivers, living with dementia, how to avoid burnout, and making the difficult transition to life after caregiving. Moreover, For Men Only and For Women Only discuss new issues originating from the different perceptions men and women bring to their caregiving jobs. The final chapter, Words of Hope and Encouragement, is, as one caregiver says, filled with words of comfort about this maelstrom which has no road maps, no absolutes ... to help me feel less alone and lost.Complete with helpful interactive worksheets and resource lists, this book's helpful mixture of humor, comforting support, and concrete advice offers invaluable support and practical advice.Susan Berman, M.S., M.S.W. (Fresh Meadows, NY), is the coauthor of the highly acclaimed Eldercare 911. She is president of Barrister Advisory Services, which specializes in geriatrics. She lectures on eldercare and trains clients nationwide.Judith B. Rappaport-Musson, CSA (Jupiter, FL), is the coauthor of Eldercare 911. She is a Certified Senior Advisor and the cofounder and partner in Preferred Client Services, Inc., which specializes in eldercare management. She lectures on eldercare and trains clients nationwide.

Introduction to Optimum Design is the most widely used textbook in engineering optimization and optimum design courses. It is intended for use in a first course on engineering design and optimization at the undergraduate or graduate level within engineering departments of all disciplines, but primarily within mechanical, aerospace and civil engineering. The basic approach of the text is to describe an organized approach to engineering design optimization in a rigorous yet simplified manner, illustrate various concepts and procedures with simple examples, and demonstrate their applicability to engineering design problems. Formulation of a design problem as an optimization problem is emphasized and illustrated throughout the text. Excel and MATLAB are featured throughout as learning and teaching aids. The 3rd edition has been reorganized and enhanced with new material, making the book even more appealing to instructors regardless of the level they teach the course. Examples include moving the introductory chapter on Excel and MATLAB closer to the front of the book and adding an early chapter on practical design examples for the more introductory course, and including a final chapter on advanced topics for the purely graduate level course. Basic concepts of optimality conditions and numerical methods are described with simple and practical examples, making the material highly teachable and learnable. Applications of the methods for structural, mechanical, aerospace and industrial engineering problems. Introduction to MATLAB Optimization Toolbox. Optimum design with Excel Solver has been expanded into a full chapter. Practical design examples introduce students to usage of optimization methods early in the book. New material on several advanced optimum design topics serves the needs of instructors teaching more advanced courses.

Success Is Just Around Every Question Mark Finally, the friendly comprehensive reference tool every woman is looking for has arrived. Find answers to all of your personal finance questions, from the simple (What 's a good credit score?) to the complex (What are my options in retirement planning?). This book 's question and answer format means you don 't have to waste time reading every word cover to cover. Biblical references offer proven wisdom from God, and Carolyn Castleberry 's practical guidance is easy to implement. Success is simply turning obstacles into opportunities. And that begins with obtaining information that, thanks to this book, is clear, easy to find, and non-intimidating. Carolyn Castleberry, quickly becoming one of America 's most trusted names in Christian broadcasting, provides you the answers you seek in every area of personal finance. With her warm, conversational style, Carolyn 's "there are no dumb questions" approach makes difficult concepts come alive ... and more importantly make sense (so that you can make the most of your dollars). Honest, straightforward, and easy for anyone to apply, these "answers" stem from a biblically and financially sound foundation—providing the perfect conditions for success. Whether you are looking for freedom to make new career choices, seeking financial security and peace of mind, or you 're on the lookout for the next solid investment, Women, Get Answers About Your Money harnesses timely, unique information to empower your life.

Introduces the popular spreadsheet program for the OS/2 operating system, and tells how to make and use a worksheet, write macros, print, and work with graphs, files, and database operations
