Davie Jones—an ugly duckling growing up in small-town Mississippi with a mother who couldn't get any meaner—is positive her life couldn't be any worse. Just when she's resigned herself to her fate, she sees a movie that will change her life—Sixteen Candles. But in her case, life doesn't imitate art. Tormented in school and hopelessly in unrequited love with a handsome football player, Davie finds it bittersweet to dream of Molly Ringwald endings. When a cruel school prank goes too far, Davie leaves the life she knows and reinvents herself in the glittery world of Hollywood—as a beautiful and successful lounge singer. Just as she's about to ride off into the L.A. sunset, the past comes back with a vengeance, threatening to crush Davie's dreams—and break her heart again. With wholly original characters and a cinematic storyline, 32 Candles introduces Emessa T. Carter, a new voice in fiction with smarts, attitude, and sassiness to spare.

Welcome to the proceedings of ICCHP 2008. We were proud to welcome participants from more than 40 countries from all con- nents to ICCHP. The International Programme Committee, encompassing 102 experts form all over the world, selected 150 full and 40 short papers out of 360 abstracts submitted to ICCHP. Our acceptance rate of about half of the submissions, demonstrates the scientific quality of the programme and in particular the proceedings you have in your hands. An impressive group of experts agreed to organize "Special Thematic Sessions" (STS) for ICCHP 2008. The existence of these STS sessions helped to bring the me- ing into sharper focus in several key areas of assistive technology. In turn, this deeper level of focus helped to bring together the state-of-the-art and mainstream technical, social, cultural and political developments. Our keynote speaker, Jim Fruchterman from BeneTech, USA highlighted the - portance of giving access to ICT and AT at a global level. In another keynote by H- old Thimbleby, Swansea University, UK, the role of user-centred design and usability engineering in assistive technology and accessibility was addressed. And finally, a combination keynote and panel discussion was reserved for WAI/WCAG2.0, which we expect to be the new reference point for Web accessibility from the summer of 2008 and beyond.

Hidden in the mountains of East Tennessee, an eleven-year old goes about the business of being a boy during the summer of 1970. Within a balance of terror and innocence, he bears silent witness to ghosts of the dead and the cruelties of a teenage killer while local justice plays out in a community carved from legacies of coal mining and religion.

This work looks at conflicts between the Hutu and the Tutsi in Burundi. It is also a profile of the Hutu and the Tutsi as a people. They are two social groups which claim separate identities on ethnic or tribal basis although they speak the same language and have the same culture. The work also looks at conflicts in eastern Congo which led to the downfall of President Mobutu Sese Seko of what was then known as Zaire. The author also looks at attempts by regional neighbours to resolve the conflict between the Hutu and Tutsi in Burundi, especially the role played by Tanzania and its former president, Julius Nyerere, who was the chief mediator. Most of Burundi's exports and imports go through Tanzania, giving the country leverage as the main facilitator of the peace process which sometimes has involved economic sanctions against Burundi. The conflict between the Hutu and the Tutsi is one of Africa's intractable problems. It is also one of the oldest in the post-colonial era. The book sheds some light on the complex situation in Burundi and on relations between the two groups. It also provides some insights into what can be done to resolve one of Africa's perennial problems. It can also be helpful to those who are trying to learn about Burundi for the first time. Students of African studies may also find this work to be useful.
