The Cambridge Introduction to Twentieth-Century American Poetry

He specialized in poems about surviving ... Mr. Dunn said he had been most influenced by three poets: Robert Frost, Wallace Stevens and Theodore Roethke, all themselves Pulitzer winners.

A beautiful new edition—the first in nearly twenty years—of the work of Wallace Stevens, a founding father of contemporary American poetry, with a dazzling range of work that is at once emotional and intellectual. As John N. Serio reminds us in his elegant introduction, Stevens has written more persuasively than any other poet about the significance of poetry itself in everyday life: “ The imagination—frequently synonymous with the act of the mind, or poetry, for Stevens—is what gives life its savor, its sanction, its sacred quality. ” This rich and thorough selection—published in the 130th anniversary year of Stevens ’ s birth—carries us from the explosion of *Harmonium* in 1923 to the maturity of *The Auroras of Autumn* in 1950 and the magisterial *Collected Poems* published by Knopf in 1954. To be drawn in once more by “ *The Emperor of Ice-Cream*, ” “ *Sunday Morning*, ” “ *The Idea of Order at Key West*, ” “ *Notes Toward a Supreme Fiction*, ” to name only a few, is to experience again the mystery of a poet who calls us to a higher music and to a deeper understanding of our vast and inarticulate interior world. This essential volume for all readers of poetry reminds us of Stevens ’ s nearly unparalleled contribution to the art form and his unending ability to puzzle, fascinate, and delight us. From the Hardcover edition.

"The *Collected Poems*" is the one volume that Stevens intended to contain all the poems he wished to preserve, presented in the way he wanted. An essential collection for all readers of poetry, it is an enduring monument to his dazzling achievement. Originally published in 1954 to honor Stevens's seventy-fifth birthday, the book was rushed into print for the occasion and contained scores of errors. These have now been corrected in one place for the first time by Stevens scholars John N. Serio and Chris Beyers, based on original editions and manuscripts.

This collection of the work of one of the greatest modern poets was first published in America in 1954. The *Collected Poems* was prepared by Stevens himself, shortly before his death, and contains all of his published books of poetry, covering more than four decades: from the brilliant rococo lyrics of *Harmonium*, through the large-scale orchestrations of his middle years, to the magnificent austere lyrics of 'The Rock', which first appeared in the *Collected Poems*, Stevens's poetry meditated unremittingly upon the relation between the world and the imagination. 'He seems to me - and seems to my readers, I am sure - one of the true poets of our century, someone whom the world will keep on reading just as it keeps on listening to Vivaldi or Scarlatti, looking at Tiepolo or Poussin. His best poems are the poetry of a man fully human - of someone sympathetic, magnanimous, both brightly and deeply intelligent; the poems see, feel, and think with equal success; they treat with mastery that part of existence which allows of mastery, and experience the rest of it with awe or sadness or delight.' - Randall Jarrell, *Poetry and the Age* 'One of the most considerable poets of the last hundred years...Poems that are as distinguished as any written in this century.' - Thom Gunn, *London Magazine*

Selected works celebrate the writer's poetic response to life

The poet's 1923 debut features some of his most famous works, including "Thirteen Ways of Looking at a Blackbird," "The Emperor of Ice-Cream," and "Peter Quince at the Clavier."

Discusses the difficult style of Wallace Stevens, looks at his major themes, and analyzes, in detail, several of his poems

Modern American poets writing in the face of death In *Last Looks, Last Books*, the eminent critic Helen Vendler examines the ways in which five great modern American poets, writing their final books, try to find a style that does justice to life and death alike. With traditional religious consolations no longer available to them, these poets must invent new ways to express the crisis of death, as well as the paradoxical coexistence of a declining body and an undiminished consciousness. In *The Rock*, Wallace Stevens writes simultaneous narratives of winter and spring; in *Ariel*, Sylvia Plath sustains melodrama in cool formality; and in *Day by Day*, Robert Lowell subtracts from plenitude. In *Geography III*, Elizabeth Bishop is both caught and freed, while James Merrill, in *A Scattering of Salts*, creates a series of self-portraits as he dies, representing himself by such things as a Christmas tree, human tissue on a laboratory slide, and the evening/morning star. The solution for one poet will not serve for another; each must invent a bridge from an old style to a new one. Casting a last look at life as they contemplate death, these modern writers enrich the resources of lyric poetry.

This selection of works by Wallace Stevens--the man Harold Bloom has called “ the best and most representative American poet ” --was first published in 1967. Edited by the poet's daughter Holly Stevens, it contains all the major long poems and sequences, and every shorter

poem of lasting value in Stevens' career, including some not printed in his earlier Collected Works. Included also is a short play by Stevens, "Bowl, Cat and Broomstick."

When *Opus Posthumous* first appeared in 1957, it was an appropriate capstone to the career of one of the most important writers of the twentieth century. It included many poems missing from Stevens's *Collected Poems*, along with Stevens's characteristically inventive prose and pieces for the theater. Now Milton J. Bates, the author of the acclaimed *Wallace Stevens: A Mythology of Self*, has edited and revised *Opus Posthumous* to correct the previous edition's errors and to incorporate material that has come to light since original publication. A third of the poems and essays in this edition are new to the volume. The resulting book is an invaluable literary document whose language and insights are fresh, startling, and eloquent.
