How To: Yamaha 60 HP Winterization/ Oil change. Drain your boat for winter. ~~Yamaha Ox 66 225 Hp~~

During the last several months we had the opportunity to sea trial four boats with Yamaha outboard motors in the 200 to 250 hp range. Two sets of these were on Grady-White 272 Sailfish, and another on a Pursuit 2855. This makes for a total of eight engines ranging in years from 1995 to 1999, which gave us a pretty good look at how these engines are performing over time.

~~Help! Engine overheat alarm on Yamaha 2000 Ox66 225HP ...~~

Yes indeed. Interestingly, however, I found that the O2 sensor in my 225 Ox-66 was a bit of weak link in the design. If one didn't use Yamaha's RingFree carbon reducing additive or equivalent, the O2 sensor would get fouled up and when that happened, the sparkplugs would foul because the motor would run richer than necessary (defaulted to a rich setting).
